British Cycling Track Presentation at Litherland Sports Park

Tim Buckle, who is the British Cycling Talent Development Coach for West Midland and North West Regions, has designed a video presentation entitled 'Why Track' based on track development and the part it plays in cycling.

I have taken up the offer for him to come to Merseyside and include us in the programme, which aims at presenting the show to as many clubs and cycling development groups throughout his regions.

The presentation is approximately for one and a half hours, and will take place at Litherland Sports Park on Tuesday 14th December 2010 at 8pm (no cost involved), there will be some interaction with those present. The presentation is aimed at younger riders and their parents, but is open to all who are interested. All Merseyside coaches are more than welcome to come along, in fact I urge them to come and have a look.

A knock on from this will be the North West Regions track sessions for young novice to intermediate riders, I will be arranging these early in the New Year at Manchester velodrome. This is a great opportunity for young riders to kick-start their track career as so many riders have done in previous years.

Hope you can be there.
